

DANIYAL QURESHI

Senior QA Automation Engineer

daniyalqureshi212@gmail.com | +92 334 324 1003 | Karachi, Pakistan

[GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Senior QA Automation Engineer with 4+ years architecting scalable automation frameworks across web, mobile, and API layers using Selenium, Playwright, Cypress, and Appium. Cut test execution time by 25% and widened coverage through robust, CI/CD-integrated suites. An early adopter of AI-augmented testing, leveraging Claude Code with Playwright to autonomously generate and maintain end-to-end tests and accelerate delivery. Thrives in fast-paced Agile teams where speed, quality, and reliability drive release confidence.

TECHNICAL SKILLS

Automation Tools: Selenium, Playwright, Cypress, Appium, Katalon Studio, XCTest

API & Performance: Postman, REST Assured, JMeter, RabbitMQ

Programming: Java, JavaScript, TypeScript, Python, Groovy, SQL

AI-Augmented Testing: Claude Code, LLM-assisted test generation, prompt engineering for QA workflows

CI/CD & DevOps: Jenkins, GitLab CI, Git

Testing Expertise: Framework Design, API Testing, Mobile & Web Automation, Performance & Manual Testing

Methodologies: Agile, Scrum, BDD, TDD, Test Strategy & Planning

PROFESSIONAL EXPERIENCE

Test Automation Engineer II | Next Generation Innovation

Jun 2024 – Present

- Engineered Selenium-based automation for business-critical web workflows, accelerating regression cycles and sharpening execution accuracy.
- Scaled Android automation with Appium, safeguarding mobile app reliability across every release.
- Hardened system reliability by building comprehensive REST Assured API suites that expanded backend coverage.
- Embedded automated tests into Jenkins and GitLab CI pipelines, shrinking feedback loops and enabling faster, safer deployments.
- Spearheaded an AI-augmented testing initiative pairing Claude Code with Playwright to autonomously author, maintain, and run end-to-end tests in CI/CD, slashing manual scripting effort and turnaround time.
- Drove consistency across the automation suite by designing reusable AI prompt templates enforcing Page Object Model, BDD/Cucumber, and Allure standards, cutting onboarding time for new engineers.

QA Engineer – Automation | Innovative Solutions

Feb 2024 – Jun 2024

- Delivered cross-platform automated coverage for Android, iOS, and web using Appium, Selenium, and XCTest.
- Partnered with cross-functional teams to shape end-to-end test strategies tightly aligned to product goals.

Test Automation Engineer | Co-ventech

Nov 2022 – Feb 2024

- Drove cross-platform test automation with Cypress, Selenium, Playwright, and Appium, expanding coverage across web and mobile.
- Strengthened backend stability through targeted API and performance testing with Postman and JMeter.

SQA Engineer | Peak Corporate Solutions

Nov 2021 – Oct 2022

- Elevated code quality and testability by contributing focused feedback throughout peer code reviews.
- Accelerated defect resolution by closely tracking fixes and deliverables alongside the development team.

EDUCATION

Bachelor of Science in Computer Science

2019 – 2023

Bahria University, Karachi, Pakistan — CGPA 3.00

Higher Secondary Certificate (HSC) – Science

2018

Govt. Degree Science & Commerce College, Malir Cantt., Karachi — Grade B

Secondary School Certificate (SSC) – Science

2016

Allied School (Secondary), Gulshan-e-Hadeed Campus, Karachi — Grade A
